

# CAREER ASSESSMENT PROGRAM BENEFITS

EduGroomers is an **Unbiased Career Counselling** Institute with **NO** affiliations with any institute, colleges, study abroad or other education product vendors. You are guaranteed 100% genuine responses from our counsellors who will guide you for what is right for you.

**EduGroomers Career Assessment Package** includes:

## *Career Evaluation Test*

- Identify all your natural career choices (with 50+ natural career options)
- Know 15+ career options that you should avoid.
- Select your top 3 career choices with EduGroomers expert career counsellor
- Understand your career growth chart for all your top career choices.
- Realize the working environment that you would be most comfortable with (for study as well as job.)

## *Career Interest Test*

- Know your current career interests (These careers may or may not be naturally satisfying to you.)
- Identify your interest areas before the counsellor helps you understand your suitable career choices.
- Learn about your strengths, and weaknesses. Work extensively on your strengths to excel ahead.

## *Aptitude Test*

- Select a career field that utilizes your aptitude and intelligence to achieve greater success.
- Evaluate your vocabulary, verbal skills, critical thinking and logical reasoning capability.
- Assess your ability to work with numbers and mathematical calculations based on logic and analytical skills.
- Understand your ability to work with abstract ideas and complex patterns.

## *Personality Test*

- Understand various facets of your personality
- Recognize different aspects of your personality such as emotional strength, organizational efficacy, sociability and open-mindedness which contributes to your success in your career.
- Become aware of your thinking pattern and your skills to perceive information.
- Realize if higher management or business roles attract you.
- Explore areas of improvement for increased satisfaction in academic and personal life.

## *Emotional Intelligence Test*

- Perceive, control and evaluate your emotional response to events and various circumstances
- Realize how your self-esteem, emotional literacy, assertiveness, interpersonal interaction, social intelligence, need for independence, leadership abilities, tolerance levels and your adventurism affects your overall physical and mental health and contributes to life satisfaction.
- Understand reasons for being stuck in an emotional frenzy.
- Become aware of ways to consciously avert depression, stress and frustration in life
- Know your risk taking appetite and financial management ability.

Know Yourself Early in Life and Plan well towards a bright and successful career path ahead.

- If you are a student, know all your career options, and know your emotional response, personality traits that complement academic and career excellence.
- If you are a parent, get 360 degree evaluation of your child and understand suitable career choices.
- If you are a job-seeker, know yourself, recognize your strengths, and know careers that attract you as well as those that you should avoid.
- If you are a working professional facing mid-life crisis, identify your problem areas that may lead to building stress, boredom, frustration or even depression within yourself and affect your personal and work life.
- If you are looking for a career change, understand your transferrable skills and seek guidance to suitable career avenues.
